

## Exposure – Developing Creative Leaders

Momentum Arts has a strong reputation in the creative arts and especially in the areas of diversity and social inclusion. In the last 18 years we have commissioned, supported and provided training (mainly around working in inclusion and participation) for around 50 artists in the East of England.

With this commitment to artist development in mind, we have created Exposure – Developing Creative Leaders. This three year Arts Council funded programme will work with 30 emerging and mid career artists, who work in participatory settings, by supporting them to access training and networking opportunities.

We have already worked with 10 artists in the first year of the Exposure programme all of whom have attended a series of skills share events. Many of the artists travelled to Durban, South Africa to work as part of the Momentum Arts' arts team to deliver a programme of arts that ran throughout the Deloitte Street Child World Cup.

We are now looking to recruit artists for the third year of this exciting programme. We would like to hear from emerging and mid career artists who are working in participatory settings. Formal qualifications are not essential but an enthusiasm for participatory arts is. We are especially interested in hearing from artists from Cambridgeshire, Peterborough and Fenland. By joining the Exposure programme you will get a chance to join our pool of socially engaged artists, network with other artists as well as access opportunities to be become involved in exciting arts projects.

The programme includes:

- 4 'skills shares' evenings over the course of the year to which we will invite guest speakers. The skills shares are also an excellent opportunity to network with other artists.
- 3 days of shadow experience which could involve visiting projects or working alongside other artists.
- Working with other artists on a digital collaboration.

We cannot pay artists to attend these activities but we would, of course, pay expenses and cover any materials needed.

The total contact time over the year would be 12 sessions (day or evening).
